**Subject:** MicroSoft Settlement

I work for a government organization, so was the settlement reached to protect Micro\$oft and avoid the Irony Of The Day:

"A government organization purchasing goods and services from a vendor found guilty, by the government, for violations of the Sherman Anti-Trust Laws, established by the government."

I am deeply concerned that our political system has allowed a convicted criminal to get away on "their own terms".

As a taxpayer I demand that all government agencies stop pertetuating the Micro\$oft Monoply, and spend my hard earned tax dollars wisely by supporting the \*NIX systems with costs only a fraction or M\$.

The ultimate penalty for Micro\$oft ---- removing income resources of their #1 customer YOU !
